ATTACK ON DUNDEE

By the Boers Will Certainly
Occur Within a Very
Few Days.

GREAT MILITARY ACTIVITY

Continues All Along the Frontier.
Troops and Carbineers Are Mobilizing
For the Defense of New Castle,
Natal—Johannesburg Being Rapidly
Depopulated.

London, Oct. 2.—From all points in the Transvaal, Natal and Cape Colony come reports of continued military activity on the frontiers, and, while the movement of individual commands as yet do not show concerted plans, it is evident that the narrow, wedge-like strip of Natal, whose apex is crowned with the ominous name of Majuba Hill, will be the center of the coming storm.

The Boers have established a camp at Schoepers Nek, near Vryheid, and are mobilizing a great force on the Buffalo river today, which the authorities at Dundee expect will move across the border to that point, probably at once.

It is believed that a conflict at this point will certainly occur early in the week.

At the same time the Boers are collecting a force of 2,000 men, under the notorious Commandant Cronje, in the Malmal gold fields, near Mafeking, where Colonel Baden-Powell is stationed.

Dispatches from Tuli, Rhodesia, announce that another force of burghers is massed at Pietersburg, 80 miles south, and that outlying parties are posted at all the drifts along the Limpopo river.

In the meantime Colonel Plummer's column is moving 50 miles nearer the Transvaal frontier and has established telephone connections to within six miles of Rhodesia drift, on the Limpopo.

Enthusiastic scenes at all the railway stations have marked the advance of the Natal volunteers.

Dispatches from Mafeking announce that Commandant Cronje, commander of the Transvaal border police, crossed the border and visited Chief Barolaga, apparently with the object of inciting him to fight. The British chief commissioner ordered the chief to stay and protect the women and children, telling him that he would not be allowed to fight.

The Boers openly threaten to raid Vryheid in British Bechuanaland, as soon as hostilities open, and the Kimberley Advertiser complains of the apathy of the Cape ministry in not taking steps to prevent this.

The Transvaal field corps are taking the names of colonial Boers who are willing to cross the border in the event of war.

The British camp in the vicinity of Dundee consists of 5,000 men, with 24 guns in strong position. The Orange Free State is actively commencing.

The Transvaal government has virtually taken over the Netherlands railway for military purposes and Natal trains are being turned back. Telegraph wires between Natal and Johannesburg have been cut since Friday.

A party of 800 Germans has been notified.

READY FOR THE FIELD

Commanding Orders Completed
and Burghers Ready to March.

Johannesburg, Oct. 2.—The commanding orders are completed and the burghers are ready for the field.

Business has virtually ceased. The merchants have finished barricading their premises, and the proprietors of the drinking saloons expect to receive a notification to close their establishments today.

A party of 800 Germans has been notified.

"Mrs. Sanders had
ten hemorrhages and
people here said she
would never be well
again."

W. A. Sanders, Esq., of Hern, Mason County, W. Va., writes: "My wife had hemorrhage of the lungs. She had ten hemorrhages and people here said she would never be well again. But she began to take Dr. Pierce's Golden Medical Discovery, and she soon began to gain strength and health. After taking ten bottles she was entirely well. If you think this will do you any good to publish, just use it, and, if anyone disputes the merits of this almost omnipotent medicine, they may enclose a self-addressed envelope with stamp, and I will answer."

When anything is wrong with the lungs there is no time to lose. The steps are easy, and quick, from a "slight cold" to bronchitis; from bronchitis to pneumonia; from pneumonia to permanently weakened lungs, and from that to dread consumption itself.

The time to cure consumption is before it gets a start. Take Dr. Pierce's Golden Medical Discovery on the first appearance of cough or cold, and you will never have a hemorrhage or tuberculosis. The "Discovery" is the greatest health builder in the world.

It first straightens out all digestive disorders, and aids the body in ridding itself of the poisonous effluvia. It tones up the stomach, invigorates the liver and in connection with Dr. Pierce's Peppermint Cure, keeps the bowels open and regular. Don't let an unscrupulous medicine dealer foist some substitute when you want Dr. Pierce's medicines. Assert your rights—get what you ask for, and be well.

Dr. Pierce's Golden Medical Discovery is sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nervous system. Address: DR. MILES MEDICAL CO., Elkhart, Ind.

ON TO WASHINGTON

After Being Lionized by New
Yorkers For Nearly
a Week.

ADMIRAL GEORGE DEWEY

Will Sail Into the National Capital
on a Palace Car and Capture the
Hearts of That City—Chicago's In-
vitation to the Fall Festival De-
clined, With Regrets.

New York, Oct. 2.—Admiral Dewey left the Waldorf-Astoria today at noon on his journey to Washington. The trip from Jersey City to Washington is being made on the most elaborate special train ever run by the Pennsylvania railroad.

Admiral Dewey's personal party consists of himself; his son, George B. Dewey; his brother, Charles Dewey and wife; Captain Lambertson and wife; Flag Lieutenant Brumby and Lieutenant Caldwell. A special private car was provided for the admiral.

In addition, the following naval officers, as special guests, accompany the party: Rear Admirals Sampson, Schley, Philip and Casey; Captains C. D. Sigbee and Robley D. Evans; Commander E. P. Wood and Ensign E. L. Bennett. General Miles was also in the party.

CHICAGO'S INVITATION

Admiral Dewey Will Not Be Present
at the Cornerstone Laying.

New York, Oct. 2.—There were many callers at the Waldorf yesterday who wished to send cards to Admiral Dewey, but few were permitted to do so, the admiral's fatigue being given as the reason.

During the early part of the day the only ones who were honored were the members of the Chicago committee.

When Mayor Carter Harrison, accompanied by the committeemen, arrived at the hotel the doors of the big hall in the Waldorf side were thrown open and they entered the room.

Admiral Dewey came into the room shortly afterward. He wore a civilian suit with frock coat and dark trousers, and carried no hat. The instant he appeared there was a burst of applause. He saluted and said: "Good morning, all."

Admiral Dewey met Mayor Harrison as he advanced with a cordial greeting. Mayor Harrison said:

"Admiral Dewey, I appreciate your dislike for set speeches, and have therefore none to make. I only want to say that I thank you in behalf of the Chicago committee for the honor done us by your receiving us here today. It is an honor second to none in the land. And now I wish to extend to you, on behalf of the committee, and on behalf of the city of Chicago, an invitation to come to our city. We wish you to come to us whenever you may see fit. We make no specific time, but we would be glad to have you with us on Oct. 9 when President McKinley is to be present at the laying of the cornerstone of our new postoffice. I now hand you the formal invitation of the committee."

Admiral Dewey received the invitation that Mayor Harrison extended to him. Admiral Dewey held the invitation in his hand and turned its pages. As he continued to turn over the leaves, he glanced up and said:

"Mr. Mayor and Members of the Committee, the honor is mine. I wish I could go to your city tomorrow, but that is impossible. As you know, I am soon due in Washington. Then I must go to Vermont. I must have some rest, and I have not been there for years. It is my great regret that I cannot go at once to your city. I wish so much I could be there when President McKinley will be there. I thank you, Mr. Mayor, and I thank you, Chicagoans."

Mayor Harrison expressed himself as well pleased with the reception given him and the committee.

AT WASHINGTON

A Glorious and Mighty Welcome Will
Be Extended Dewey.

Washington, Oct. 2.—Elaborate preparations have been made to give Admiral Dewey a glorious and mighty welcome when he returns to Washington this evening, the nation's hero.

His arrival in the city will be signified by an admiral's salute of 17 guns and a pandemonium of noise from all the cannon, bells and steam whistles in or about the city. From this time until late in the night his presence will let loose the kindled enthusiasm of the thousands who have been eagerly awaiting his coming.

A divo parade of 18,000 men is only a small part of the first night's proceeding for an immense throng of the people will file before him for an hour, their number being limited only by the broad width of Pennsylvania avenue.

He and the president will occupy a reviewing stand built just south of the treasury building and facing Pennsylvania avenue. Tomorrow will be the great day of the celebration, however, for then Admiral Dewey is to be escorted to the capitol by the president and his cabinet and a fine military escort and presented the sword voted to him by congress. The exercises will be brief.

While here Admiral Dewey will be the guest of Mrs. Washington McLean, mother of John B. McLean, Democratic candidate for governor of Ohio.

NEW TELEGRAPH APPARATUS.

Berlin, Oct. 2.—The apparatus invented by the Hungarians, Pollak and Virag, to telegraph 80,000 words an hour, has been tested between Berlin and Buda Pest. It transmitted 220 words in 10 seconds. The German postal department considers the apparatus too delicate for ordinary use.

COLUMBIA AND SHAMROCK.

New York, Oct. 2.—The yachts Columbia and Shamrock will meet in their first race for the America's cup tomorrow. Experts expect that the race will prove a contest as earnest and interesting as any that have preceded it for the international yachting trophy.

HUNTERS DISCONCERTED

Cannot Go Into Illinois Without Paying a \$10 License Fee.

Terre Haute, Ind., Oct. 2.—Indiana hunters along the state line are much disconcerted over the fact, now known by them for the first time, that under a new Illinois law hunters who go into that state from another must pay a license fee amounting to about \$10.

Terre Haute hunters have been in the habit of going to Illinois for fall shooting quite as much as to the surrounding territory in Indiana. A number of hunting parties were being arranged to go to Illinois next November for quail, which are reported to be more numerous than in many years.

CUBAN TRADE

Statement of Exports of Merchandise and Gold Coin.

Washington, Oct. 2.—The war department has given out a statement of exports of merchandise and gold coin at the port of Havana for the first eight months of American occupation.

One of the most striking features of the report is the volume of products that passes month by month from the port of Havana, at a time when the agricultural resources of the island are at their minimum.

If the volume of business continues for the next four months at the ratio of the past eight months the export trade of Havana for the first year of American occupation will exceed the handsome sum of \$29,000,000.

The total exports for eight months were \$18,958,570. The United States alone taking \$13,423,417 worth, leaving to be distributed among 20 other countries only \$5,535,153 worth. The exports of merchandise to the United States was \$12,890,038 and gold coin \$390,374. Spain took \$575,040 worth of merchandise and \$1,603,429 in gold coin while France took \$973,960 worth of merchandise and \$518,650 worth of gold coin.

Attempted Her Life.

Fairfield, Ind., Oct. 2.—Mrs. Myrtle Bright, in a fit of anger at a reproof of her father, Joseph B. Pymate, attempted suicide Saturday by saturating her clothing with oil and then igniting it. She ran, covered with flames, into the street, where her screams of agony soon brought help. The flames were extinguished, but not before she was badly burned about the head and body. There is no hope of her recovery.

The New Orleans Returns.

New York, Oct. 2.—The United States cruiser has arrived from Santo Domingo City. The New Orleans was sent to Santo Domingo to look after American interests during the anticipated troubles subsequent to the assassination of President Henriquez. Affairs having settled down, the New Orleans was ordered to Tompkinsville.

Resumed Operations.

Anderson, Ind., Oct. 2.—The American Wire Nail Trust's plants were put into full operation, employing 700 men, this morning. The Anderson cog and package plants, employing 150 men, will resume Wednesday. The Union windowglass plants, employing 125 men, will resume Saturday. All have been shut down last summer.

Sad News For a Soldier.

Muncie, Ind., Oct. 2.—Francis Stoker, a veteran of the Mexican and civil wars, dropped dead last evening. His son, Everett, now homecoming from the Philippines, will learn of his father's death and that of his betrothed, Miss Edna Fogel at Chicago, simultaneously.

Medical Men's Convention.

WARDNER MINERS TICKS OFF THE WIRES

Unusual Prison Punishment For Men Who Have Not Been Tried.

Anascond, Min., Oct. 2.—President Boyce of the Western Federation of Miners will immediately appeal to President McKinley in behalf of the imprisoned Couer D'Alene miners at Wardner. For the last eight days, it is alleged, all the prisoners have been kept on a bread and water diet and for trivial violations of prison rules have been punished, being obliged to stand for eight hours immovable in the hot sun.

For refusing to work the straw has been taken from their bunks and they have been compelled to sleep on the bare boards. No tobacco is permitted and no visitors are allowed to speak to the prisoners. These men have been imprisoned five months without trial and in the meantime two sessions of the district court have been held.

Some Rich Purses to Be Competed For by Many Horses.

Lexington, Ky., Oct. 2.—Eighty thousand dollars in stakes and purses will be given away at the 10-days' meeting of the Lexington trots which commenced today. The chief event will be the \$10,000 transylvania. Peter the Great, Lord Vincent and other good ones will start. The richest stake of the meeting will be the \$16,000 Kentucky futurity. Two carloads of the greatest campaigners in the country arrived yesterday, over 200 in number, worth in aggregate nearly \$1,000,000, and probably as rich a train of horseflesh as was ever made up.

PRISON DEMON

Escapes From the Steel Cage in Columbus Pen—Recaptured.

Columbus, Oct. 2.—John Atkinson, confined in the steel cage at the penitentiary, built for prison "demons," escaped yesterday from his cell and had secreted himself under a bench in the corridor when captured. The steel cage was thought to be absolutely safe, there being two sets of doors and two sets of locks, worked only from the outside by levers and bolts. Atkinson managed, by the use of a stick, to disarrange the whole system of locks and free himself.

SCOTSMAN'S CREW

Twenty-Three of Them Charged With Looting Ship and Passengers.

Montreal, Oct. 2.—Twenty-three members of the wrecked steamship Scotsmen's crew have been arrested charged with looting the cargo and passengers. Among the goods found in their bags were diamond rings, watches, brooches, bracelets and other jewelry, ladies' dresses, silks and satins, men's wearing apparel and ladies' sealskin coats. The value of the articles recovered is placed at \$8,000.

Elevator Burned.

Cairo, Ill., Oct. 2.—The grain elevator of the H. L. Halliday Milling company was totally destroyed by fire Saturday night. The flames started near the top of the building probably originating from a hot journal. The elevator was completed last summer at a cost of \$30,000. It had a capacity of 800,000 bushels of wheat, and was three-fourths full of grain. The property is covered by insurance.

Goes to Texas.

Lincoln, Neb., Oct. 2.—Colonel W. J. Bryan completed his Nebraska speech-making tour at Fairbury Saturday night, and left yesterday for Dallas, Tex., where he will take part in the Democratic rally beginning today. After making a number of speeches in Texas Mr. Bryan will go to Kentucky for an extended campaign, and may also speak in Ohio.

Fifty Bodies Recovered.

Calcutta, Oct. 2.—Fifty bodies have been recovered at Phool Bazaar, one of the centers of the recent earthquakes, floods and landslides. The terrible stench of decomposition has checked further search for the present. A burial service was held where the children of the Methodist missionary are supposed to be entombed.

Wisconsin Freeze.

Plainfield, Wis., Oct. 2.—Thermometers yesterday registered 20 degrees above zero, which breaks all previous records for Oct. 1. The ground was frozen one inch deep. Potatoes are badly frozen and the loss will be extensive.

Captain Henry McKinnin Dead.

MONDAY, OCT. 2, 1899.

SEYMOUR'S third street fair is over and the success attained is a matter of congratulation to all. The fair did great credit to our city's spirit of enterprise and progress. To the street fair management we all owe a debt of gratitude larger than we can at once repay. They gave much valuable time and earnest thought to the preparations, neglecting nothing that would tend to the success of the enterprise. That they did well the splendid results are all the evidence needed. The men composing the management are T. S. Blish, Jack Shiel, G. A. Clark, Dr. G. G. Graessle, W. L. Johnson, H. M. Schwing, Henry Price, Alpha Cox, Simon Strauss, Dr. W. E. Gerrish and Geo. Ensenberger. They, too, are grateful to the business men and citizens in general for the support given. It was all well done.

Bible Society Meeting.

The annual meeting of the Seymour and vicinity auxiliary of the American Bible Society was held at the First Baptist church Sunday evening. There was a good attendance and an interesting meeting. Dr. Henderson, of Chicago, field agent for the Bible Society in Indiana, Illinois and Wisconsin delivered an excellent address. He discussed the importance of the work of the society, especially at this time since Cuba, Puerto Rico and the Philippines are open to protestant missionaries. As there are thirty-five different languages spoken in the Philippines besides the Spanish the Bible Society supplies a special need.

The report of the local officers showed the auxiliary to be in good condition. The Repository contains a large stock of bibles and testaments. C. A. Saltmarsh, the librarian, has given good satisfaction, but as an opportunity is offered to place the Repository on the ground floor in the store of Mr. Stratton, the jeweler, a change is made. The following officers were elected for the ensuing year: Hon. Louis Schneck, president; the pastors of the local protestant churches, vice presidents; N. M. Carlson, secretary; C. E. McCrady, treasurer; W. P. Masters, Dr. Shipman, T. J. Stanfield, L. F. Miller, W. J. Houchen, and William Willmann, directors.

Those in need of bibles and testaments, who have the means to pay for them, can get them at lowest list prices at the Repository. Those who have not the means to buy them can get them on an order to the librarian from any of the officers. It is now the purpose of the society, as soon as a suitable person can be found and the means provided, to put a colporteur in the field here.

DIED.

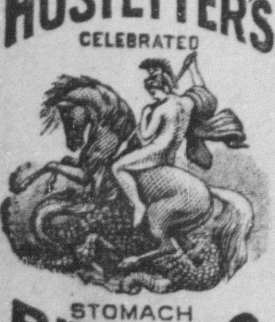

KLIPPEL.—Christopher Klippel died at his home in this city at 8 o'clock this forenoon. He had been in business in Seymour many years and had a large circle of friends. The deceased was born in Germany June 24, 1835, making his age 64 years, 3 months and 8 days. A wife and four sons and two daughters survive. The funeral will take place from St. Paul's Protestant church Wednesday afternoon at 2 o'clock and will be in charge of Seymour Lodge No. 204, I. O. O. F. of which he was a member.

ITS ALL OVER.

Street Fair Closed Saturday Night Amid Much Joyful Noise.

The Street fair closed Saturday night and the verdict of all was, "well done." Everybody was happy and joined in the joyful noise concluding the festivities of the week. The bands played on every corner but they could not stand out against the tin horn that was so much in evidence. The noise and confusion of noises began early in the evening but grew less after 10 o'clock and by 11:30 everything was quiet and the streets that had been thronged with people all week were deserted, save by the occasional night watchman, who remained on his beat until Sunday morning. The street fair was over.

Today the stages and booths are being removed from the streets. In twenty-four hours more the streets will again put on an every-day appearance and business will be moving along as usual.

Mr. and Mrs. J. A. Willey were united in marriage 17 years ago yesterday. The anniversary was royally celebrated and 23 relatives and friends were present to enjoy the occasion with them.

September Weather and Crops.

Weather conditions during September, 1899, were phenomenal. A range of temperature from a maximum of 101 on the 6th to a minimum of 30 on the 30th, breaks all previous records. A solar rainbow, very perfect, on the 6th, solar halos on the 6th and 8th, thunder storms on the 6th, 8th and 24th, hail on the 8th and 24th, a decided cold wave on the 29th, light frosts on the 21st, 27th and 28th and a killing frost, with a thin formation of ice, on the morning of the 30th, were notable meteorological features.

The long drouth—prevailing for 45 days—was partially broken by a generous rainfall on the 24th, but pastures are sere and brown and the soil is too dry and hard for cultivation. All tender vegetation is frost killed, but the corn crop—an average in yield and quality—is safe, much of it in shocksome fields have been "shucked." Much wheat has been sown and most fall plowing is completed. General crop outlook fairly good.

JOHN AULD FORSYTHE,
Indiana Weather Bureau.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st. Philadelphia, Pa., when she found that Dr. King's New Discovery for consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"it soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c and \$1.00. Trial bottles free at W. F. Peter's drug store; every bottle guaranteed.

Pastor's Conference.

This forenoon there was a meeting of local ministers in the study of Rev. J. T. Charlton, which resulted in the organization of the Pastor's Conference. Those present were Pastors Charlton, Cleveland, Severinghaus, Veach and Allen. It is expected that other pastors of Seymour and vicinity will at once identify themselves with the organization. The officers chosen are Rev. J. T. Charlton, president, Rev. J. W. Cleveland, secretary and treasurer. A committee on program for next meeting, consisting of Cleveland and Vest, was appointed. The conference will meet the first Monday of each month at 10:30 a. m. They will consider questions relative to their pastoral work.

Three Doctors in Consultation.

From Benjamin Franklin.

"When you are sick, what you like best is to be chosen for a medicine in the first place, what experience tells you is best, to be chosen in the second place, what reason (i. e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. For sale by C. W. Milhous.

Calvin Hughes and wife, of Carington, who spent the past week here with friends and attended the street fair, went to Shelbyville last night.

How to Prevent Croup.
We have two children who are subject to attacks of croup. Whenever an attack is coming on my wife gives them Chamberlain's Cough Remedy and it always prevents the attack. It is a household necessity in this county and no matter what else we run out of, it would not be without Chamberlain's Cough Remedy. More of it is sold here than of all other cough medicines combined.—J. M. Nickle, of Nickle Bros., merchants, Nickleville, Pa. For sale by C. W. Milhous.

ASTOWAWAY SLEUTH

ODE: VOCATION OF AN OLD SAN FRANCISCO BOATMAN.

He Runs His Prey to Water Instead of to Earth—How the Stowaways Get Aboard Ship and How They Generally Come to Grief.

Down by the city's sea wall a queer man pursues a queer vocation. He is a water front "character," and his business is the sleuthing of stowaways. He doesn't run his prey to earth, however, after the manner of other hunters of human game. He runs it to water.

This weather hardened, wrinkled man is at once the terror and the friend of would be stowaways. He is known as Captain Jack, but his name has half a dozen variations, all of which smack of the salt, salt sea. These are some of his aliases: Wharf Rat, Water Fowl, Sea Dog, Whaler, Old Man Jack and The Boatman.

His stock in trade consists of his shrewdness in "spotting a stow" and a battered but seaworthy old boat which rides the water by night and day through successive seasons. The town's attractions do not lure him from his long accustomed haunts among the masts, figureheads, pliers and piles, sails, nets, stringers and multitudinous varieties of merchandise that crowd the bay's edge.

Captain Jack came out of his seashell of reserve long enough the other day to tell a bit of what he knows about that venturesome creature of chance, the stowaway, who would fain voyage out of port without the previous formality of paying for passenger privileges.

"I've been in this business a long time," he said, "an I can generally spot a 'stow.'"

"Different ones has different methods. Some hangs round the docks afore a ship sails, offerin' to lead a hand, or proposin' to work a passage somewhere. When they find this don't go the way they want it to, they commence to talk big—inquire 'bout sea weather, the cost of a cruise, the time it takes to git to the islands or Alaska or Panama. They're always just-a-goin' to make the trip. But there's somethin' so hungry an homesick an tired lookin' about 'em that it gives 'em dead away—leastways it does to a person who's spent a good many years studyin' their kind."

"Others, though, wait till the last minute, then come hustlin' along as if they was too rushed to buy a ticket or as if they had one in their pocket. Why, I've even been asked by 'em to row 'em out to a ship after she'd got clear out into the stream. If a skipper happens to be good natured, he'll slack up an take passengers aboard. An after all that bother I've had to bring 'em back again, for nary a red did they have."

"This class of deadheads is generally supplied with clothes, gripsacks, hat boxes, steamer trunks, canes, umbrellas, cameras, foldin' chairs an sometimes a servant."

"Not a valet?"
"Sure. That's what we sailors call puttin' on a terrible lot of dog. Them's the fellers that always has friends 'mong' gunners, rajahs, lords, dukes an consuls, an likewise money to burn—but always across the water somewhere. I don't mind the men, but I hate to tackle a woman."

"Women stowaways?"
"Sure. When the Klondike boom was on, I used to bring in as many women as men. Some was only girls—little slim things, goin' to the icy gold mines with no more outfit than the thin clothes they stood in."

"The easiest part of the stow's plan in makin' an escape is the gitlin' aboard. Nobody knows who's who the day a ship's leavin' port. If she's crowded so much the better. The stow can hide in the hold without bein' spied. But it's mighty hard to git past the Heads, for by that time the ship's been searched an the stows yanked out on deck."

Captain Jack spoke truly. The stowaway who passes the Heads has run the gantlet safely—unless an incoming vessel be at hand to convey the intruder back again.

When the final gong has been sounded, the warning "All visitors ashore!" given, the gangplank withdrawn, the last rope loosened and the screw turned, the vessel's interior is carefully explored. Meanwhile Captain Jack's weather beaten boat is speeding in its wake. If a stowaway be discovered a signal is sent from the pilot's bridge and Captain Jack is quickly alongside. A rope ladder is lowered, and toward it the pursuer or other officer and his aids escort the disgruntled "stow."

"Every day," continued Jack, "I fetch in men an women that want to git away. They're broke, an thought they'd try their luck in some other place. I lump most of 'em off at Meliggs' wharf. It's a heap easier for me an for the stows. There's more lumber there an fewer folks to stare. Some of 'em turns out all right, an some is afterward fished out of the bay. Then they go to the coroner. A dead man, it seems, is worth more to the city than a live one."

And thus it is that the stowaways sooner or later all journey with Captain Jack—some to begin life all over again, others to lie for a brief time on a marble slab at the morgue marked "Unidentified."—San Francisco Examiner.

On her wedding day the Danish peasant girl wears a simple crown of myrtle with the national costume—varying with the district, but always charming—and pots of myrtle are carefully cherished by girlish hands through the long winters in anticipation of the great event.

The five Lutheran ministers of the county left today for Hamilton, O., to attend the Indianapolis and Seymour Lutheran conference.

"CARTHAGINIAN OF MAINE"

How Hannibal Hamlin Won the Title in the Maine Legislature.

Among the many stories of Hamlin's early experiences in the Maine legislature none is more animated than his tilt with John Holmes, interesting, besides, because it gives the origin of "the Carthaginian of Maine," a name that stuck to Hamlin through life. Holmes had been in the United States senate, and at this particular time, writes General Hamlin, a member of the state house of representatives, was endeavoring to dominate over it.

Hamlin disputed the leadership with him, and Holmes attempted to crush his young opponent by coarsely ridiculing his swarthy complexion. Instantly Hamlin jumped to his feet and, pointing his finger at Holmes, retorted: "If the gentleman chooses to find fault with me for my complexion, what has he to say about himself? I take my complexion from nature. He gets his from the brandy bottle. Which is more honorable?" This remark was greeted with great applause and cries of "Go on!"

Hamlin then continued, pointing his finger at Holmes: "I will also tell the member from Alfred that he is more conspicuous for trying to run dryshod over young men than for trying to encourage them. But as long as they are true to themselves and to nature and as long as the member from Alfred sticks to the brandy bottle they need not fear him." As soon as the cheers of the house could be sufficiently silenced Holmes retracted his words and made a manly apology. "The young Carthaginian routed the old Roman" was one humorous comment on the incident, and from that time Hamlin was thus frequently characterized.—Lewiston Journal.

WAR CORRESPONDENTS.

Are They a Detriment to the General Commanding an Army?

Everything in a campaign depends upon the general in command, upon his coolness, resourcefulness and rapidity of glance. He may be a man who dislikes correspondents, a dislike they are certain to return, and he feels therefore as if he were perpetually watched in the gravest crises by personal enemies, a feeling which would have been fatal to Marlborough or Eugene of Savoy, the two commanders most remarkable for immovable sang froid. Everybody is not born with the advertising spirit, and there are insects which under a burning glass feel torture instead of that enjoyment of warmth which the operator maintains they ought to feel. Imagine the condition of a general like Frederick the Great, whose main business during three years of his campaigning life was to repair defeat, with 50 "correspondents" in his camp reporting every disaster, every preparation and every execution of the incompetent or the unruly!

It would be maddening to such a general to know that the distribution of blame or fame did not depend upon himself, but would be taken out of his hands by writers not under his command, who would declare that an attack like that on Spelcheren, which almost cost an army corps, was "superb" because it succeeded, or that the perhaps best general in the army was habitually a little late in issuing his commands. We do most seriously believe that there are officers of the highest merit in the British army from whom the country will never obtain the best service they are capable of performing because of the multitude of reporters in the camps. That is a thought which those who are responsible for armies are bound to ponder, and, knowing as they do its truth, we do not wonder that they doubt whether to interest the readers of newspapers is an advantage sufficient to outweigh so many risks.—London Spectator.

With the Fading of Beauty.

A 16-year-old girl imagines that she is an angel, and never gets over it. After a woman gets old she thinks of how she was admired and complimented in her youth and feels that some great wrong was done her because she did not remain as pretty as she was at 16. If she is married, she is apt to lay the blame on the brutality of her husband; if she is an old maid, she lays it on her father, who was poor, and thus forced her to work, which resulted in a stooping figure and harsh features. A man never has this experience. He is at his worst at 16 and does not reach his best until he is 26 to 30. By that time he has acquired a little sense, and never mistakes a compliment for the truth.—Atchison Globe.

To Mrs. Pinkham, Lynn, Mass.

[LETTER TO MRS. PINKHAM NO. 41,307]

"DEAR FRIEND—A year ago I was a great sufferer from female weakness. My head ached all the time and I would get so dizzy and have that all gone feeling in the stomach and was so nervous and restless that I did not know what to do with myself."

"My food did me no good and I had a bad case of whites. I wrote to you and after taking Lydia E. Pinkham's Vegetable Compound as directed, I can truly say that I feel like a new woman and cannot tell you how grateful I am to you."

"I have recommended it to all my friends and have given it to my daughter who is now getting along splendidly. May you live many years to help our suffering sisters."—MRS. C. CARPENTER, 253 GRAND ST., BROOKLYN, N. Y.

Over eighty thousand such letters as this were received by Mrs. Pinkham during 1897. Surely this is strong proof of her ability to help suffering women.

DYED DIAMONDS.

Yellow Stones Can Be Made to Look Like Gems of the First Water.

"There are tricks in every trade" has grown to be an adage, and this proverb holds especially good with regard to the jewelry trade, which for "years" that are dark and tricks that are vain" fairly takes the palm for roguery.

Although a great deal of capital, time and labor have been devoted to counterfeiting the diamond, very little success has been obtained from a fraudulent point of view, as the diamond possesses extraordinary qualities of hardness and brilliancy, with which no imitation, up to now, can attempt to vie. "Paste" of all kinds can be tested by means of a sharp steel file, which scratches its surface.

A method of successful imposition with diamonds has, however, been discovered, and the originator of this swindle actually defrauded the pawnbrokers of London alone in one year of upward of \$500,000.

The general public, as well as jewelers, are aware that diamonds of a yellowish tinge, or, as they are called in the trade, "straws," are worth very little. Large stones of this color, even when weighing from 10 to 100 carats, are quite common and will only fetch in the market from \$5 to \$20 per carat, the value, of course, increasing in ratio with weight. Diamonds of the same weight, if of the first water, or perfectly colorless, would be worth from five to ten times as much.

The methods of the individual referred to were as follows: He purchased a quantity of "yellow" stones, and then by a simple yet ingenious process succeeded in imparting to them an evanescent purity of color. This was done by procuring two ordinary glasses, a kettle of boiling water and a threepenny packet of mauve dye.

The "yellow" diamond, which was perhaps set in a gold ring or pin, was merely dipped in the glass containing the dye, and then in clean boiling water half a dozen times, and allowed to dry, when it presented all the appearance, even to the eye of an expert, of a magnificent stone of the first water.

The next move was to place the ring on the finger, and the well dressed diamond wearer would sail forth, enter a pawnbroker's and pledge the ring for at least three times its worth. Within 12 hours, however, the effects of the dye would have disappeared, and the pawnbroker could only wonder what on earth was wrong with his eyes when he advanced so much money on such a yellow stone.

Fortunately, owing to the magnitude of this individual's operations, the fraud was discovered, and now pawnbrokers, if they are suspicious of a diamond's color, immerse it in nitric acid, which destroys any dye that may be present without in any way injuring the stone.—London Mail.

GOOD MONEY FOR BAD NEWS

Paid to Learn That Sight Would Leave Him in Six Months.

Somehow it made me feel bad, this happening that I am about to relate. I was in the office of an oculist, one of the leading men in his profession in Pittsburgh. A big, strong and healthy looking man entered. His appearance indicated that he had many years of life before him. He was well dressed, keenly intelligent and of pleasant countenance.

"Doctor," he said, "my eyes have been troubling me, and I would like you to make an examination of them and treat them."

After a few preliminary questions the doctor told him to strip himself to the waist. He took off his clothes and stood there, a magnificent specimen of manhood. The doctor examined him, paying particular attention to his back, for a reason of which I know nothing. Having finished, he said:

"Put on your clothes. I can do nothing for you. Your sight may last six months, but no longer. Treatment will do no good. Blindness is sure to come."

"What's the matter, doctor?" he asked quietly, with a faint tremor in his voice.

The doctor told him in technical language and then explained that the trouble came from the wasting of a nerve leading from the spine.

"What's your bill, doctor?" asked the man when he got his clothes on.

"Five dollars," replied the doctor.

He paid it and left the office without another word. In the fullness of life he walked out into the blessed light of day, doomed within six months to darkness until death. It was an incident to the doctor; to me it was a tragedy.—Pittsburgh News.

The rifle was introduced into the British service about the beginning of the present century. They were of such primitive make that mallets were served out with each rifle to ram the bullets home.

Before 1866 the average number of labor strikes of all kinds in this country was about 500 a year. Since that date the average has been 1,500.

Beautiful Indian Springs.

This property has lately been secured by the Southern Indiana Hotel Co. The old hotel has been demolished and a new one is now in course of erection. This will be a magnificent stone structure with all modern improvements; but will not be ready this season.

There has always been more or less excursion business and parties who go there to enjoy the water. The dance hall, spring house, summer pavilion, bowling alley and club house have been left standing and may be used by excursionists and picnic parties.

To accommodate this business the Southern Indiana Railway will put in rates for excursion parties and picnics; and has also arranged special Sunday train schedule, giving patrons along the entire length of the line an opportunity to spend the day at the Spring and return home the same evening.

H. H. ROSEMAN, G. P. & T. A.

The Contest as Viewed by a Spectator at a Safe Distance.

The movements of the combatants are so rapid in battle that it is difficult to follow them through all of their evolutions, but the plan of battle seems to be very simple, says The Chautauquan. Two bees from the hive are sent to kill one intruder, and the latter always tries to force an entrance, even at the risk of its life. Once inside, it makes room for others of its companions to enter and then, gathering up its abdomen in as small a space as possible, it assumes the defensive. Two of the hive bees pounce upon it and collaring it fiercely they seek to find a vulnerable point between the rings of its body to sting it to death. The attacking bee just as determinedly struggles to cover every unprotected spot. If sufficient time can be gained and the attacking swarm is large enough to force an entrance the badly mauled bees that have not been stung to death will suddenly assume the offensive and pursue the tactics of their enemies. The contortions and evolutions of the various fighters are interesting to the observer.

Should the battle go against the attacking body, the balance of the swarm flies away to seek safety, and the dead carcasses of their companions are thrown contemptuously out of the hive.

HARRISON'S WATCH

Crook at Knoxville, Tenn., Claims to Know Its Whereabouts.

UNITED STATES SENATE'S

Gift to the Ex-President When He Retired From that Body Was Stolen Five Years Ago—The Timepiece Was Valued at \$1,000—E. Wilson Says It Is Buried Near Akron, O.

Knoxville, Tenn., Oct. 2.—E. Wilson, said to be a noted crook, is under arrest here on a charge of burglary. In a consultation with Chief of Police Reeder he volunteered, in exchange for his freedom, to conduct the chief to the place where is secreted the famous watch stolen from ex-President Harrison five years ago. The watch was presented by the senate at the expiration of Harrison's term. It was diamond studded, the center stone being valued at \$400. The time piece is worth more than \$1,000 and a much larger reward is outstanding.

Wilson had on his person a diagram of a place near Akron, O., where, he says, the watch was buried by a partner soon after it was stolen and the original thief did not reveal its place of concealment until a few months ago, on his deathbed. Wilson was making his way to the place when arrested here. He will not be released until Chief Reeder has the prize safe in his hands.

SWINDLER WANTED

Assistant National Librarian Offers a Reward For C. R. Graham. Elkhart, Ind., Oct. 2.—Chief Assistant Librarian of Congress A. R. Spofford has authorized Police Superintendent Braden of this city to offer a reward of \$100 for the arrest of one Charles R. Graham, who is wanted for forgery and other swindling operations.

Graham came here in June and represented himself to be an agent of the committee for the distribution of copies of the compilation of messages and state papers prepared by the presidents from the time of Washington, and of which committee Mr. Spofford is secretary. A limited number of sets were authorized by congress on payment of \$33. Graham went to a prominent citizen and took his order for a set for \$16, receiving in payment a check for the amount, made out in favor of Mr. Spofford. Mr. Graham registered at the Golden hotel as Spofford, and induced the proprietor to endorse the check, which was then cashed by a local bank. As the books did not arrive, the purchaser wrote to Mr. Spofford, and in return was informed that Graham was an impostor, who had similarly secured at least \$500 in other cities, at taking for further information. The result was the offer of the reward.

ROBBED OF \$50

Money That Was Saved by a Family For Winter Clothing. Windfall, Ind., Oct. 2.—The residence of Nebemiah H. Ellis was entered by thieves who secured \$50 in cash. Mr. Ellis and his son were sleeping upstairs and left their clothes hanging on the bedpost, from which they were taken and carried into the yard, where \$45 was extracted from the father's trousers and \$5 from the clothes of the son. The greater portion of the money was saved up by Mrs. Ellis from her own earnings in the canning factory for the purpose of buying winter clothing for the family.

ANTS AS FIGHTERS.

THE TINY WARRIORS ARE FEROCIOUS IN BATTLE.

So Vicious Are They That Even the Largest Animals Dare Not Meet Them in Combat—A Man Whom Their Bites Made a Having Maniac.

"I was one of six American miners who were routed from their camp by a Venezuelan army," said a mining expert who lately arrived from Venezuela. "We retreated before the invaders without making a fight, and for two good reasons. In the first place we would have got the worst of the encounter, and, secondly, we knew that if we let them alone they would do us a good service."

"Shortly after dawn one Sunday our native cook burst in upon us with the news that we were about to be attacked by an army of ants. We had heard enough about ant armies to know what to do. We arose hastily, and every ounce of provisions that was not sealed in cans or in jars was hurriedly piled on a table, the four legs of which were immersed in as many basins of water. Every maneuver that is known to the armies of civilized humans you may safely expect from an ant army, but the little black warriors have never learned to swim. Our provisions thus protected, we left the camp to itself and went out to reconnoiter for the invaders and to watch their assault from a distance. The army was making fair time. An irregular patch of black 10 feet wide and double as long was swarming steadily toward our camp. As the army was in no way disturbed by our presence it was possible to approach its lines closely. There must have been millions upon millions of little soldiers marching hip to hip. At the head marched the leader. On went the army, up the posts of the camp and then within."

"Once within, the army spread itself in all directions, forming hundreds of little attacking parties. The camp was an old palm thatched affair and so infested with scorpions, centipeds and spiders that we had been on the point of destroying it. Now, however, the ants had come and would clean house for us, and therefore they were welcome. The ants swarmed up the joists and the dry leafy walls, and wherever there was a spider or a bug there was a brief tussle and a dead foe. But there was bigger game in store for the invaders."

"The star battle was with an immense centipede, one of the bluish gray kind, about seven inches long and as big around as your middle finger. He darted out of a hole like a blue streak, evidently trusting to his speed and superior strength to run through the enemy's ranks. But he didn't get three feet before he was stopped. Ants literally covered him. He turned on himself and swept them from his back, but before he had gone another three feet he was buried beneath another swarm of his plucky assailants. And then began a fight to the death. Again and again he swept his tormentors from his back while from all sides hurried streams of ants to take the place of fallen comrades. The wriggling of the big fellow became less lively as the fight progressed, and finally, after an effort, which I well knew was a desperate last one, he remained quiet while what little life was left in him was bitten out of him. Later, when the army had retreated and when we had swept up the centipeds and scorpions and lizards and a tarantula which the ant army had vanquished, we put the hero of the star battle under a quartz magnifying glass. The bodies of dead ants still clung to their foe. From his back, from his legs, from wherever there was a chance for a hold, the bodies of ants dangled, holding on, I suppose, by their teeth."

"Perhaps you wonder what would happen to a man who would undertake to fight an army of ants, assuming, of course, that the man relies on his natural means of defense—his hands and feet. I can best illustrate that by the rare story of an unfortunate who was brought to a hospital in Caracas shortly before my return home. The man was a coolie who had worked on a cocoa plantation in a creek not far from Caracas. Following a habit of some of his countrymen, the coolie, owing to the heat, had left his camp and stretched himself on the ground to sleep outdoors. Exactly what followed no one can say with certainty. Presumably he was surrounded and covered by an army of ants before he awakened. At dawn the shrieks and cries of a man in agony aroused the inmates of the camp, who ran out to learn the cause."

"The man was gesticulating wildly and calling for help, while he squirmed and writhed and slapped his face and neck and chest and legs in a mad effort to slay himself all over at once. He was standing in the midst of an army of ants and was too distracted with pain to run away. Then he did exactly what a panther or leopard does when he is being overcome. The man threw himself to the ground to roll his tormentor to death. A single active white man could have saved the poor wretch, but the stupefied, barelegged coolies dared not, or thought not, of rescue, while the victim himself was too crazed with agony to seek other than instant relief. From a slight personal experience I know the poor fellow was burning in a fire which would take hours to kill him."

"Finally a bystander regained his wits and rushed into the midst of the army and dragged the man after him and threw him into the creek. The rescue came too late. The victim became unconscious. His velvety, brown skin was a pink mass of raw bites. When he came to the hospital, he was bound hand and foot, a maniac, whose continuous notion was that he was being eaten by ants."—New York Sun.

WONDERFUL RESULTS.

PEOPLE TELL WHAT HAS BEEN DONE FOR THEM.

The Testimony of Well Known Citizens Ought Surely to Convince You.

If we publish the recommendation of some person in Indiana who has used Morrow's Kid-ne-olds for backache and kidney disorders and has been cured, you have no reason to doubt. We give you the names of people living right here in this state, so you can consult them. We make no false statements nor claims for Kid-ne-olds, but give you the evidence of people whom you know. If Kid-ne-olds did not do as we claim they do, people would not give their testimony."

Here is what Henry Havens, the grocer at 52 West Sumacore street, Kokomo, Ind., has to say: "I have had backache almost constantly for the last three years. Many nights I could not sleep on account of a dull, heavy pain in the region of the kidneys and at times I could not turn over in bed without assistance. I had retention and burning of urine in its discharge; this was annoying as well as painful. I doctored for these troubles, but got no relief and had seemingly arrived at the very worst point when I read the claims of Morrow's Kid-ne-olds; I secured a package and followed the directions closely. Their action was quick and sure and today I am a different man. I shall continue to use Kid-ne-olds and will recommend them."

Kid-ne-olds are for sale at Alpha Cox's drug store.

Robbed by Grave. A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim."

No one should fail to try them. Only 50 cts., guaranteed, at W. F. Peter's drug store.

Hello! Did you say that you were not feeling well and that your stomach was out of order? Well then, try a bottle of Dr. Caldwell's Syrup Pepsin and you are sure of relief. Constipation and indigestion cured, Sick headache cured, Greatest boon to mankind and is being appreciated by thousands.

Chronic Diarrhoea Cured.

This is to certify that I have had chronic diarrhoea ever since the war. I got so weak I could hardly walk or do anything. One bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy cured me sound and well.

J. R. GIBBS, Fincastle, Va. I had chronic diarrhoea for twelve years. Three bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy cured me.

S. L. SHAVER, Fincastle, Va. Both Mr. Gibbs and Mr. Shaver are prominent farmers and reside near Fincastle, Va. They procured the remedy from W. E. Casper, a druggist of that place, who is well acquainted with them and will vouch for the truth of their statements. For sale by C. W. Milhous.

Good Enough to Take.

The finest quality of loaf sugar is used in the manufacture of Chamberlain's Cough Remedy and the roots used in its preparation give it a flavor similar to that of maple syrup, making it very pleasant to take. As a medicine for the cure of coughs, colds, lagrippe, croup and whooping cough it is unequaled by any other. It always cures, and cures quickly. For sale by C. W. Milhous.

Excursion to Louisville via Pennsylvania Lines.

For the industrial exposition, street fair and carnival which opens Monday October 9th and closes Saturday, October 21st, low rate non-transferable excursion tickets will be sold every day of the carnival except Sunday, Oct. 16, from Columbus and intermediate ticket stations to Louisville via Pennsylvania Lines, good returning three days including date of sale.

Not the Wisest Way.

It is not always best to wait until it is needed before buying a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Quite frequently the remedy is required in the very busiest season or in the night and much inconvenience and suffering must be borne before it can be obtained. It costs but a trifle as compared with its real worth and every family can well afford to keep it in their home. It is everywhere acknowledged to be the most successful medicine in the world for bowel complaints. For sale by C. W. Milhous.

EXCURSION TICKETS TO CHICAGO

Will be Sold via Pennsylvania Lines during Nine Days. From Oct. 2d to Oct. 10th, inclusive, special low rate tickets to Chicago will be sold via Pennsylvania Lines account the Fall Festival and dedication of the Government Building. President McKinley and members of his cabinet, President Diaz, of Mexico, and other prominent men are expected to take part in the dedicatory exercises. The event will be an interesting one, as elaborate preparations have been made for a big time, the biggest, perhaps, experienced by Chicago since the World's Fair.

Anybody may take advantage of the low fares. The return limit of tickets may be extended until Oct. 14th. For particulars about fares, through trains, etc., apply to nearest Ticket agent of the Pennsylvania Lines.

Don't Coffee Agree With

If you drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain O I did not like it but after using it for one week nothing would induce me to go back to coffee."

It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a pack age today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young, 15c and 25c.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free. F. J. CHENEY & CO., Toledo, Ohio.

Sold by druggists, 75c. Hall's Family Pills are the best.

75 cents. Indiana Excursion 75 cents.

The B. & O. S-W. will run a cheap excursion to Vincennes and intermediate points on Sunday October 1. Train leaves Seymour at 10 a. m. and returning will leave Vincennes at 6 p. m. You had better go on this one as it may be the last chance to go to Vincennes and return for 75 cents. B. N. EDMONSON, Acting Ticket Agent.

Grain-O Brings Relief.

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment.

Drink Grain-O. If ever you have concluded that you ought not to drink coffee. It is not a medicine but doctors order it, because it is healthful, invigorating and appetizing. It is made from pure grains and has that rich seal brown color and taste like the finest grades of coffee and costs about 1/2 as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. 15c and 25c.

Chronic nasal catarrh poisons every breath that is drawn into the lungs. There is procurable from any druggist the remedy for the cure of this trouble. A small quantity of Ely's Cream Balm placed into the nostrils spreads over an inflamed and angry surface, relieving immediately the painful inflammation, cleanses, heals and cures. A cold in the head vanishes immediately. Sold by druggists or will be mailed for 50 cents by Ely Brothers, 56 Warren street, New York.

GREAT MILITARY ACTIVITY

Continues All Along the Frontier. Troops and Carbineers are Mobilizing For the Defense of New Castle, Natal—Johannesburg Being Rapidly Depopulated.

London, Oct. 2.—From all points in the Transvaal, Natal and Cape Colony come reports of continued military activity on the frontiers, and, while the movement of individual commands as yet do not show concerted plans, it is evident that the narrow, wedge-like strip of Natal, whose apex is crowned with the ominous name of Majuba Hill, will be the center of the coming storm.

The Boers have established a camp at Schoepers Nek, near Vryheid, and are mobilizing a great force on the Buffalo river today, which the authorities at Dundee expect will move across the border to that point, probably at once. It is believed that a conflict at this point will certainly occur early in the week.

At the same time the Boers are collecting a force of 2,000 men, under the notorious Commandant Orenje, in the Malmait gold fields, near Mafeking, where Colonel Baden-Powell is stationed.

Dispatches from Tuli, Rhodes, announce that another force of burghers is massed at Pietersburg, 50 miles south, and that outlying parties are posted at all the drifts along the Limpopo river.

In the meantime Colonel Plummer's column is moving 50 miles nearer the Transvaal frontier and has established telephone connections to within six miles of Rhodesia drift, on the Limpopo.

Enthusiastic scenes at all the railway stations have marked the advance of the Natal volunteers.

Dispatches from Mafeking announce that Commandant Cronje, commander of the Transvaal border police, crossed the border and visited Chief Barolong, apparently with the object of inducing him to fight. The British civil commissioner ordered the chief to stay and protect the women and children, telling him that he would not be allowed to fight.

The Boers openly threaten to raid Vryburg in British Bechuanaland, as soon as hostilities open, and the Kimberley Advertiser complains of the apathy of the Cape Ministry in not taking steps to prevent this.

The Transvaal field corps are taking the names of colonial Boers who are willing to cross the border in the event of war.

The British camp in the vicinity of Dundee consists of 5,000 men, with 24 guns in strong position. The Orange Free State is actively countering. The Transvaal government has virtually taken over the Netherlands railway for military purposes and Natal trains are being turned back. Telegraph wires between Natal and Johannesburg have been cut since Friday.

ON TO WASHINGTON

After Being Lionized by New Yorkers For Nearly a Week.

ADMIRAL GEORGE DEWEY

Will Sail Into the National Capital on a Palace Car and Capture the Hearts of That City—Chicago's Invitation to the Fall Festival Declined, With Regrets.

New York, Oct. 2.—Admiral Dewey left the Waldorf-Astoria today at noon on his journey to Washington. The trip from Jersey City to Washington is being made on the most elaborate special train ever run by the Pennsylvania railroad. Admiral Dewey's personal party consists of himself; his son, George B. Dewey; his brother, Charles Dewey and wife; Captain Lambertson and wife; Flag Lieutenant Bramby and Lieutenant Caldwell. A special private car was provided for the admiral.

In addition, the following naval officers, as special guests, accompany the party: Rear Admirals Sampson, Schley, Philip and Casey; Captains C. D. Sigbee and Robley D. Evans; Commander E. P. Wood and Ensign E. L. Bennett. General Miles was also in the party.

Chicago's Invitation

Admiral Dewey Will Not Be Present at the Cornerstone Laying.

New York, Oct. 2.—There were many callers at the Waldorf yesterday who wished to send cards to Admiral Dewey, but few were permitted to do so, the admiral's fatigue being given as the reason. During the early part of the day the only ones who were honored were the members of the Chicago committee.

When Mayor Carter Harrison, accompanied by the committee members, arrived at the hotel the doors of the big hall in the Waldorf side were thrown open and they entered the room.

Admiral Dewey came into the room shortly afterward. He wore a civilian suit with frock coat and dark trousers, and carried no hat. The instant he appeared there was a burst of applause. He saluted and said: "Good morning, all."

Admiral Dewey met Mayor Harrison as he advanced with a cordial greeting. Mayor Harrison said:

"Admiral Dewey, I appreciate your dislike for set speeches, and have therefore none to make. I only want to say that I thank you in behalf of the Chicago committee for the honor done us by your receiving us here today. It is an honor second to none in the land. And now I wish to extend to you, on behalf of the committee, and on behalf of the city of Chicago, an invitation to come to our city. We wish you to come to us whenever you may see fit. We make no specific time, but we would be glad to have you with us on Oct. 9 when President McKinley is to be present at the laying of the cornerstone of our new postoffice. I now hand you the formal invitation of the committee."

Admiral Dewey received the invitation that Mayor Harrison extended to him. Admiral Dewey held the invitation in his hand and turned its pages. As he continued to turn over the leaves, he glanced up and said:

"Mr. Mayor and Members of the Committee, the honor is mine. I wish I could go to your city tomorrow, but that is impossible. As you know, I am soon due in Washington. Then I must go to Vermont. I must have some rest, and I have not been there for years. It is a great regret that I cannot go at once to your city. I wish so much I could be there when President McKinley will be there. I thank you, Mr. Mayor, and I thank you, Chicagoans."

Mayor Harrison expressed himself as well pleased with the reception given him and the committee.

AT WASHINGTON

A Glorious and Mighty Welcome Will Be Extended Dewey.

Washington, Oct. 2.—Elaborate preparations have been made to give Admiral Dewey a glorious and mighty welcome when he returns to Washington this evening, the nation's hero. His arrival in the city will be signalized by an admiral's salute of 17 guns and a pandemonium of noise from all the cannon, bells and steam whistles in or about the city. From this time until late in the night his presence will let loose the kindled enthusiasm of the thousands who have been eagerly awaiting his coming.

A civic parade of 15,000 men is only a small part of the first night's proceeding for an immense throng of the people will file before him for an hour, their number being limited only by the broad width of Pennsylvania avenue. He and the president will occupy a reviewing stand built just south of the treasury building and facing Pennsylvania avenue. Tomorrow will be the great day of the celebration, however, for then Admiral Dewey is to be escorted to the capitol by the president and his cabinet and a fine military escort and presented the sword voted to him by congress. The exercises will be brief.

While here Admiral Dewey will be the guest of Mrs. Washington McLean, mother of John R. McLean, Democratic candidate for governor of Ohio.

PRETORIA

Martial Law to Be Proclaimed—Civil Proceedings Stopped.

Pretoria, Oct. 2.—It is expected that martial law will be proclaimed tomorrow. Already all civil proceedings have been stopped until further orders and another proclamation postpones the sittings of the circuit court.

The sentiment of the Boers was significantly manifested as the train carrying the Pretoria contingent to the front departed. Members of the Volksraad, who were looking on, exclaimed: "That is our ultimatum."

Joubert In Command.

Cape Town, Oct. 2.—The Cape Argus publishes the following dispatch from Johannesburg: "Commandant General Joubert will command the Boer forces at Laings Nek. This is regarded as the Transvaal's reply to the movements of British troops. There is considerable uneasiness here."

AGUINALDO'S

Third Attempt to Get His Government Recognized Turned Down by Otis.

Manila, Oct. 2.—Aguinaldo's third attempt to shift his difficulties to the field of diplomacy is a repetition of the other one or two, with an impossible endeavor to obtain some sort of recognition of his so-called government.

The Filipino envoys had an hour's conference with General Otis yesterday. They brought from Aguinaldo a message that he desired peace and wished to send a civilian governmental commission to discuss the question. General Otis replied that it was impossible for him to recognize Aguinaldo's government in any way.

They presented a letter from Aguinaldo as "president of the republic," which was largely a repetition of his recent appeals for recognition. General Otis informed them that while he was willing to correspond with Aguinaldo as general of the insurgent forces, he must positively decline to recognize him as president of the civil government.

HENRY GEORGE THEORY

German Government Puts It Into Practice In China.

Berlin, Oct. 2.—Poulney Bigelow, one of the delegates to the international geographical congress now in session here, recently visited Kiaochow, Shanghai, China, on behalf of the American Geographical society, and there discovered an economic fact which the German press has hitherto ignored.

Mr. Bigelow said the German government had put into practice at Kiaochow the land theory of Henry George, having expropriated before the German seizure all the Chinese land owners. The Germans now sell the use of the land to European settlers and business men with revolution every three years. Prices are cheap, but the government will doubtless use the money thus obtained wisely.

On inquiry in official quarters a press representative learns that the German government has made a similar application of George's land theory in New Guinea.

New Telegraph Apparatus.

Berlin, Oct. 2.—The apparatus invented by the Hungarians, Pollak and Virag, to telegraph 50,000 words an hour, has been tested between Berlin and Buda Pest. It transmitted 230 words in 10 seconds. The German postal department considers the apparatus too delicate for ordinary use.

Columbia and Shamrock.

New York, Oct. 2.—The yachts Columbia and Shamrock will meet in their first race for the American cup tomorrow. Experts expect that the race will prove a contest as earnest and interesting as any that have preceded it for the international yachting trophy.

HUNTERS DISCONCERTED

Cannot Go Into Illinois Without Paying a \$10 License Fee.

Terre Haute, Ind., Oct. 2.—Indiana hunters along the state line are much disconcerted over the fact, now known by them for the first time, that under a new Illinois law hunters who go into that state from another must pay a license fee amounting to about \$10. Terre Haute hunters have been in the habit of going to Illinois for fall shooting quite as much as to the surrounding territory in Indiana. A number of hunting parties were being arranged to go to Illinois next November for quail, which are reported to be more numerous than in many years.

CUBAN TRADE

Statement of Exports of Merchandise and Gold Coin.

Washington, Oct. 2.—The war department has given out a statement of exports of merchandise and gold coin at the port of Havana for the first eight months of American occupation.

One of the most striking features of the report is the volume of products that passes month by month from the port of Havana, at a time when the agricultural resources of the island are at their minimum.

If the volume of business continues for the next four months at the ratio of the past eight months the export trade of Havana for the first year of American occupation will exceed the handsome sum of \$25,000,000. The total exports for eight months were \$18,958,570. The United States alone taking \$13,423,417 worth, leaving to be distributed among 20 other countries only \$5,535,153 worth. The exports of merchandise to the United States was \$18,599,038 and gold coin \$390,534. Spain took \$675,040 worth of merchandise and \$1,803,439 in gold coin while France took \$973,960 worth of merchandise and \$18,950 worth of gold coin.

Attempted Her Life.

Fairland, Ind., Oct. 2.—Mrs. Myrtle Bright, in a fit of anger at a reproach of her father, Joseph B. Plymate, attempted suicide Saturday by igniting her clothing with oil and then sitting in the street, where her screams of agony soon brought help. The flames were extinguished, but not before she was badly burned about the head and body. There is no hope of her recovery.

The New Orleans Returns.

New York, Oct. 2.—The United States cruiser has arrived from Santo Domingo City. The New Orleans was sent to Santo Domingo to look after American interests during the anticipated troubles subsequent to the assassination of President Henrquez. Affairs having settled down, the New Orleans was ordered to Tompkinsville.

Resumed Operations.

Anderson, Ind., Oct. 2.—The American Wire Nail Trust's plants were put into full operation, employing 700 men, this morning. The Anderson keg and package plants, employing 150 men, will resume Wednesday. The Union windowglass plants, employing 125 men, will resume Saturday. All have been shut down all summer.

Sad News For a Soldier.

Muncie, Ind., Oct. 2.—Francis Stoker, a veteran of the Mexican and civil wars, dropped dead last evening. His son, Everett, now homecoming from the Philippines, will learn of his father's death and that of his betrothed, Miss Edna Fogel at Chicago, simultaneously.

Medical Men's Convention.

Chicago, Oct. 2.—The 20th annual convention of the Mississippi Valley Medical association will be opened here tomorrow afternoon. Nearly 800 delegates will be present.

MONDAY, OCT. 2, 1899.

SEYMOUR'S third street fair is over and the success attained is a matter of congratulation to all. The fair did great credit to our city's spirit of enterprise and progress. To the street fair management we all owe a debt of gratitude larger than we can at once repay. They gave much valuable time and earnest thought to the preparations, neglecting nothing that would tend to the success of the enterprise. That they did well the splendid results are all the evidence needed. The men composing the management are T. S. Blish, Jack Shiel, G. A. Clark, Dr. G. G. Graessle, W. L. Johnson, H. M. Schwing, Henry Price, Alpha Cox, Simon Strauss, Dr. W. E. Gerrish and Geo. Eisenberger. They, too, are grateful to the business men and citizens in general for the support given. It was all well done.

Bible Society Meeting.

The annual meeting of the Seymour and vicinity auxiliary of the American Bible Society was held at the First Baptist church Sunday evening. There was a good attendance and an interesting meeting. Dr. Henderson, of Chicago, field agent for the Bible Society in Indiana, Illinois and Wisconsin delivered an excellent address. He discussed the importance of the work of the society, especially at this time since Cuba, Puerto Rico and the Philippines are open to protestant missionaries. As there are thirty-five different languages spoken in the Philippines besides the Spanish the Bible Society supplies a special need.

The report of the local officers showed the auxiliary to be in good condition. The Repository contains a large stock of bibles and testaments. C. A. Saltmarsh, the librarian, has given good satisfaction, but as an opportunity is offered to place the Repository on the ground floor in the store of Mr. Stratton, the jeweler, a change is made. The following officers were elected for the ensuing year: Hon. Louis Schneck, president; the pastors of the local protestant churches, vice presidents; N. M. Carlson, secretary; C. E. McCrady, treasurer; W. P. Masters, Dr. Shipman, T. J. Stanfield, L. F. Miller, W. J. Houchen, and William Willmann, directors.

Those in need of bibles and testaments, who have the means to pay for them, can get them at lowest list prices at the Repository. Those who have not the means to buy them can get them on an order to the librarian from any of the officers. It is now the purpose of the society, as soon as a suitable person can be found and the means provided, to put a colporteur in the field here.

DIED.

KLIPPEL.—Christopher Klippel died at his home in this city at 8 o'clock this forenoon. He had been in business in Seymour many years and had a large circle of friends. The deceased was born in Germany June 24, 1835, making his age 64 years, 3 months and 8 days. A wife and four sons and two daughters survive. The funeral will take place from St. Paul's Protestant church Wednesday afternoon at 2 o'clock and will be in charge of Seymour Lodge No. 204, I. O. O. F. of which he was a member.

Exchange of Real Estate.

Dr. George Reynolds, of Elizabethtown has traded his property here for property on the corner of Indianapolis avenue and sixth street this city to William Newsum, of Elizabethtown for his property there. Mr. Newsum will move into the property here within a few days.

ITS ALL OVER.

Street Fair Closed Saturday Night Amid Much Joyful Noise.

The Street fair closed Saturday night and the verdict of all was, "well done." Everybody was happy and joined in the joyful noise concluding the festivities of the week. The bands played on every corner but they could not stand out against the tin horn that was so much in evidence. The noise and confusion of noises began early in the evening but grew less after 10 o'clock and by 11:30 everything was quiet and the streets that had been thronged with people all week were deserted, save by the occasional night watchman, who remained on his beat until Sunday morning. The street fair was over.

Today the stages and booths are being removed from the streets. In twenty-four hours more the streets will again put on an every-day appearance and business will be moving along as usual.

September Weather and Crops.

Weather conditions during September, 1899, were phenomenal. A range of temperature from a maximum of 101 on the 6th to a minimum of 30 on the 30th, breaks all previous records. A solar rainbow, very perfect, on the 6th, solar halos on the 6th and 8th, thunder storms on the 6th, 8th and 24th, hail on the 8th and 24th, a decided cold wave on the 29th, light frosts on the 21st, 27th and 28th and a killing frost, with a thin formation of ice, on the morning of the 30th, were notable meteorological features.

The long drought—prevailing for 45 days—was partially broken by a generous rainfall on the 24th, but pastures are sere and brown and the soil is too dry and hard for cultivation. All tender vegetation is frost killed, but the corn crop—an average in yield and quality—is safe, much of it in shocks some fields have been "shucked." Much wheat has been sown and most fall plowing is completed. General crop outlook fairly good.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphia, Pa., when she found that Dr. King's New Discovery for consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c and \$1.00. Trial bottles free at W. F. Peter's drug store; every bottle guaranteed.

Pastor's Conference.

This forenoon there was a meeting of local ministers in the study of Rev. J. T. Charlton, which resulted in the organization of the Pastor's Conference. Those present were Pastors Charlton, Cleveland, Severinghaus, Veach and Allen. It is expected that other pastors of Seymour and vicinity will at once identify themselves with the organization. The officers chosen are Rev. J. T. Charlton, president, Rev. J. W. Cleveland, secretary and treasurer. A committee on program for next meeting, consisting of Cleveland and Vest, was appointed. The conference will meet the first Monday of each month at 10:30 a. m. They will consider questions relative to their pastoral work.

Three Doctors in Consultation.

From Benjamin Franklin.

"When you are sick, what you like best is to be chosen for a medicine in the first place, what experience tells you is best, to be chosen in the second place, what reason (i. e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. ASTOWAY SLEUTH

ODE VICATION OF AN OLD SAN FRANCISCO BOATMAN.

He Runs His Prey to Water Instead of to Earth—How the Stowaways Get Aboard Ship and How They Generally Come to Grief.

Down by the city's sea wall a queer man pursues a queer vocation. He is a water front "character," and his business is the sleuthing of stowaways.

He doesn't run his prey to earth, however, after the manner of other hunters of human game. He runs it to water.

This weather hardened, wrinkled man is at once the terror and the friend of would be stowaways. He is known as Captain Jack, but his name has half a dozen variations, all of which smack of the salt, salt sea. These are some of his aliases: Wharf Rat, Water Fowl, Sea Dog, Whaler, Old Man Jack and The Boatman.

His stock in trade consists of his shrewdness in "spotting a stow" and a battered but seaworthy old boat which rides the water by night and day through successive seasons. The town's attractions do not lure him from his long accustomed haunts among the masts, figureheads, pliers and piles, sails, nets, stringers and multitudinous varieties of merchandise that crowd the bay's edge.

Captain Jack came out of his seashell of reserve long enough the other day to tell a bit of what he knows about that venturesome creature of chance, the stowaway, who would sail voyager out of port without the previous formality of paying for passenger privileges.

"I've been in this business a long time," he said, "and I can generally spot a stow."

"Different ones has different methods. Some hangs round the docks afore a ship sails, offerin' to lend a hand, or proposin' to work a passage somewhere. When they find this don't go the way they want it, they commence to talk big—Inquire 'bout sea weather, the cost of a cruise, the time it takes to git to the islands or Alaska or Panama. They're always just a-goin' to make the trip. But there's somethin' so hungry an honest-sick an tired look about 'em that it gives 'em dead away—leastways it does to a person who's spent a good many years studyin' their kind."

"Others, though, wait till the last minute, then come hustlin' along as if they was too rushed to buy a ticket or as if they had one in their pocket. Why, I've even been asked by 'em to row 'em out to a ship after she'd got clear out into the stream. If a skipper happens to be good natured, he'll slack up an take passengers aboard. An after all that bother I've had to bring 'em back again, for nary a red did they have."

"This class of deadheads is gen'ally supplied with clothes, gripsacks, hat-boxes, steamer trunks, cans, umbrellas, cameras, foldin' chairs an sometimes a servant."

"Not a valet?"

"Sure. That's what we sailors call puttin' on a terrible lot of dog. Them's the fellers that always has friends 'mong' gunners, rajahs, lords, dukes an' consuls, an' likewise money to burn—but always across the water somewhere. I don't mind the men, but I hate to tackle a woman."

"Women stowaways?"

"Sure. When the Klondike boom was on, I used to bring in as many women as men. Some was only gals—little slim things, goin' to the icy gold mines with no more outfit than the thin clothes they stood in."

"The easiest part of the stow's plan is makin' an escape from the gittin' aboard. Nobody knows who's who the day a ship's leavin' port. If she's crowded so much the better. The stow can hide in the hold without bein' spied. But it's mighty hard to git past the Heads, for by that time the ship's been searched an' the stows yanked out on deck."

Captain Jack spoke truly. The stowaway who passes the Heads has run the gantlet safely—unless an incoming vessel be at hand to convey the intruder back again.

When the final gong has been sounded, the warning "All visitors ashore!" given, the gangplank withdrawn, the last rope loosened and the screw turned, the vessel's interior is carefully explored. Meanwhile Captain Jack's weather beaten boat is speeding in its wake. If a stowaway be discovered a signal is sent from the pilot's bridge and Captain Jack is quickly alongside. A rope ladder is lowered, and toward it the pursuer or other officer and his aids escort the discomfited "stow."

"Every day," continued Jack, "I fetch in men an' women that want to git away. They're broke, an' thought they'd try their luck in some other place. I lump most of 'em off at Meigs' wharf. It's a heap easier for me an' for the stows. There's more lumber there an' fewer folks to stare. Some of 'em turns out all right, an' some is afterward fished out of the bay. Then they go to the coroner. A dead man, it seems, is worth more to the city than a live one."

And thus it is that the stowaways sooner or later all journey with Captain Jack—some to begin life all over again, others to lie for a brief time on a marble slab at the morgue marked "Unidentified."—San Francisco Examiner.

On her wedding day the Danish peasant girl wears a simple crown of myrtle with the national costume—varying with the district, but always charming—and pots of myrtle are carefully cherished by girlish hands through the long winters in anticipation of the great event.

"CARTHAGINIAN OF MANNE"

How Hannibal Hamlin Won the Title In the Maine Legislature.

Among the many stories of Hamlin's early experiences in the Maine legislature none is more animated than his tilt with John Holmes, interesting, besides, because it gives the origin of "the Carthaginian of Maine," a name that stuck to Hamlin through life. Holmes had been in the United States senate, and at this particular time, writes General Hamlin, a member of the state house of representatives, was endeavoring to dominate over it.

Hamlin disputed the leadership with him, and Holmes attempted to crush his young opponent by coarsely ridiculing his swarthy complexion. Instantly Hamlin jumped to his feet and, pointing his finger at Holmes, retorted: "If the gentleman chooses to find fault with me for my complexion, what has he to say about himself? I take my complexion from nature. He gets his from the brandy bottle. Which is more honorable?" This retort was greeted with great applause and cries of "Go on!"

Hamlin then continued, pointing his finger at Holmes: "I will also tell the member from Alfred that he is more conspicuous for trying to run dryshod over young men than for trying to encourage them. But as long as they are true to themselves and to nature and as long as the member from Alfred sticks to the brandy bottle they need not fear him." As soon as the cheers of the house could be sufficiently elicited Holmes retracted his words and made a manly apology. "The young Carthaginian routed the old Roman" was one humorous comment on the incident, and from that time Hamlin was thus frequently characterized. —Lewiston Journal.

WAR CORRESPONDENTS.

Are They a Detriment to the General Commanding an Army?

Everything in a campaign depends upon the general in command, upon his coolness, resourcefulness and rapidity of glance. He may be a man who dislikes correspondents, a dislike they are certain to return, and he feels therefore as if he were perpetually watched in the gravest crises by personal enemies, a feeling which would have been fatal to Marlborough or Eugene of Savoy, the two commanders most remarkable for immovable sang froid. Everybody is not born with the advertising spirit, and there are insects which under a burning glass feel torture instead of that enjoyment of warmth which the operator maintains they ought to feel. Imagine the condition of a general like Frederick the Great, whose main business during three years of his campaigning life was to repair defeat, with 50 "correspondents" in his camp reporting every disaster, every preparation and every execution of the incompetent or the unskillful!

It would be maddening to such a general to know that the distribution of blame or fame did not depend upon himself, but would be taken out of his hands by writers not under his command, who would declare that an attack like that on Spelcheren, which almost cost an army corps, was "superb" because it succeeded, or that the perhaps best general in the army was habitually a little late in issuing his commands. We do most seriously believe that there are officers of the highest merit in the British army from whom the country will never obtain the best service they are capable of performing because of the multitude of reporters in the camps. That is a thought which those who are responsible for armies are bound to ponder, and, knowing as they do its truth, we do not wonder that they doubt whether to interest the readers of newspapers is an advantage sufficient to outweigh so many risks.—London Spectator.

With the Fading Beauty.

A 16-year-old girl imagines that she is an angel, and never gets over it. After a woman gets old she thinks of how she was admired and complimented in her youth and feels that some great wrong was done her because she did not remain as pretty as she was at 16. If she is married, she is apt to lay the blame on the brutality of her husband; if she is an old maid, she lays it on her father, who was poor, and thus forced her to work, which resulted in a stooping figure and harsh features. A man never has this experience. He is at his worst at 16 and does not reach his best until he is 26 to 30. By that time he has acquired a little sense, and never mistakes a compliment for the truth.—Atchison Globe.

To Mrs. Pinkham,
Lynn, Mass.

[LETTER TO MRS. PINKHAM NO. 41,807]

"DEAR FRIEND—A year ago I was a great sufferer from female weakness. My head ached all the time and I would get so dizzy and have that all gone feeling in the stomach and was so nervous and restless that I did not know what to do with myself. "My food did me no good and I had a bad case of whites. I wrote to you and after taking Lydia E. Pinkham's Vegetable Compound as directed, I can truly say that I feel like a new woman and cannot tell you how grateful I am to you."

"I have recommended it to all my friends and have given it to my daughter who is now getting along splendidly. May you live many years to help our suffering sisters."—MRS. C. CARPENTER, 253 GRAND ST., BROOKLYN, N. Y.

Over eighty thousand such letters as this were received by Mrs. Pinkham during 1897. Surely this is strong proof of her ability to help suffering women.

DYED DIAMONDS.

Yellow Stones Can Be Made to Look Like Gems of the First Water.

"There are tricks in every trade" has grown to be an adage, and this proverb holds especially good with regard to the jewelry trade, which for "years" that are dark and tricks that are fair" takes the palm for rogues.

Although a great deal of capital, time and labor have been devoted to counterfeiting the diamond, very little success has been obtained from a fraudulent point of view, as the diamond possesses extraordinary qualities of hardness and brilliancy, with which no imitation, up to now, can attempt to vie. "Paste" of all kinds can be tested by means of a sharp steel file, which scratches its surface.

A method of successful imposition with diamonds has, however, been discovered, and the originator of this swindle actually defrauded the pawnbrokers of London alone in one year of upward of \$500,000.

The general public, as well as jewelers, are aware that diamonds of a yellowish tinge, or, as they are called in the trade, "straws," are worth very little. Large stones of this color, even when weighing from 10 to 100 carats, are quite common and will only fetch in the market from \$5 to \$20 per carat, the value, of course, increasing in ratio with weight. Diamonds of the same weight, if of the first water, or perfectly colorless, would be worth from five to ten times as much.

The methods of the individual referred to was as follows: He purchased a quantity of "yellow" stones, and then by a simple yet ingenious process succeeded in imparting to them an evanescent purity of color. This was done by procuring two ordinary glasses, a kettle of boiling water and a threepenny packet of mauve dye.

The "yellow" diamond, which was perhaps set in a gold ring or pin, was merely dipped in the glass containing the dye, and then in clean boiling water half a dozen times, and allowed to dry, when it presented all the appearance, even to the eye of an expert, of a magnificent stone of the first water.

The next move was to place the ring on the finger, and the well dressed diamond dyer would sail forth, enter a pawnbroker's and pledge the ring for at least three times its worth. Within 12 hours, however, the effects of the dye would have disappeared, and the pawnbroker could only wonder what on earth was wrong with his eyes when he advanced so much money on such a yellow stone.

Fortunately, owing to the magnitude of this individual's operations, the fraud was discovered, and now pawnbrokers, if they are suspicious of a diamond's color, immerse it in nitric acid, which destroys any dye that may be present without in any way injuring the stone.—London Mail.

GOOD MONEY FOR BAD NEWS

Paid to Learn That Sight Would Leave Him in Six Months.

Somehow it made me feel bad, this happening that I am about to relate. I was in the office of an oculist, one of the leading men in his profession in Pittsburgh. A big, strong and healthy looking man entered. His appearance indicated that he had many years of life before him. He was well dressed, keenly intelligent and of pleasant countenance.

"Doctor," he said, "my eyes have been troubling me, and I would like you to make an examination of them and treat them."

After a few preliminary questions the doctor told him to strip himself to the waist. He took off his clothes and stood there, a magnificent specimen of manhood. The doctor examined him, paying particular attention to his back, for a reason of which I know nothing. Having finished, he said:

"Put on your clothes. I can do nothing for you. Your sight may last six months, but no longer. Treatment will do no good. Blindness is sure to come."

"What's the matter, doctor?" he asked quietly, with a faint tremor in his voice.

The doctor told him in technical language and then explained that the trouble came from the wasting of a nerve leading from the spine.

"What's your bill, doctor?" asked the man when he got his clothes on.

"Five dollars," replied the doctor.

He paid it and left the office without another word. In the fullness of life he walked out into the blessed light of day, doomed within six months to darkness until death. It was an incident to the doctor; to me it was a tragedy.—Pittsburgh News.

The rifle was introduced into the British service about the beginning of the present century. They were of such primitive make that mallets were served out with each rifle to ram the bullets home.

Before 1886 the average number of labor strikes of all kinds in this country was about 500 a year. Since that date the average has been 1,500.

Beautiful Indian Springs.

This property has lately been secured by the Southern Indiana Hotel Co. The old hotel has been demolished and a new one is now in course of erection. This will be a magnificent stone structure with all modern improvements; but will not be ready this season.

There has always been more or less excursion business and parties who go there to enjoy the water. The dance hall, spring house, summer pavilion, bowling alley and club house have been left standing and may be used by excursionists and picnic parties.

To accommodate this business the Southern Indiana Railway will put in rates for excursion parties and picnics; and has also arranged special Sunday train schedule, giving patrons along the entire length of the line an opportunity to spend the day at the Spring and return home the same evening.

The Contest as Viewed by a Spectator

A Safe Distance.

The movements of the combatants are so rapid in battle that it is difficult to follow them through all of their evolutions, but the plan of battle seems to be very simple, says The Chautauquan. Two bees from the hive are sent to kill one intruder, and the latter always tries to force an entrance, even at the risk of its life. Once inside, it makes room for others of its companions to enter and then, gathering up its abdomen in as small a space as possible, it assumes the defensive. Two of the hive bees pounce upon it and collaring it fiercely they seek to find a vulnerable point between the rings of its body to sting it to death.

The attacking bee just as determinedly struggles to cover every unprotected spot. If sufficient time can be gained to force an entrance the badly mauled bee suddenly assumes the offensive and pursues the tactics of their enemies. The contortions and evolutions of the various fighters are interesting to the observer.

Should the battle go against the attacking body, the balance of the swarm flies away to seek safety, and the dead carcasses of their companions are thrown contemptuously out of the hive.

But in the event of an opposite termination of the struggle the poor inhabitants are slaughtered. When their fate has been practically decided, many of them turn traitors to their cause, and in turn to save their own lives they join the forces of the attacking party and display great vigor in killing their former companions. But there is honest patriotism even among bees. In every hive there are some who fight to

Physicians' Supplies Headquarters.

The very fact that we are considered by the doctors to be the headquarters for Physicians' Supplies, brings many people here with their prescriptions. They argue that where the doctors go must be a good place to take their prescriptions, which is a sound deduction.

We Have an Immense Stock

Of medicines and all kinds of Surgical Dressings and Appliances, as well as rare and newest drugs and synthetic preparations. We devote the most careful attention to physicians prescriptions and their private formulas.

Old fashions in dress may be revived, but no old-fashioned medicine can replace Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by C. W. Milhous.

G. F. Pomeroy has placed in his barber shop two new six foot porcelain bath-tubs and is prepared to give hot or cold baths day or night during business hours. Mr. Pomeroy runs four chairs and has four first class barbers. Everything new and up-to-date.

O. H. Montgomery came home Saturday night from Salem where he sat as special judge in several cases. He rendered his decision in the Southern Indiana Railway against Charles G. Malott, involving the title to real estate on which the S. I. depot at Bedford is situated which had been sold at sheriff's sale to satisfy a judgment granted Malott against the old E. & R., finding for the plaintiff and setting aside the sale and enjoining the sheriff from further proceedings. Some of the cases against D. A. Jennings, charged with intoxication were tried before Mr. Montgomery and defendant found guilty.

A boon to travelers. Dr. Fowler's Extract of Wild Strawberry. Cures dysentery, diarrhoea, seasickness, nausea. Pleasant to take.

Our little boy was afflicted with rheumatism in his knee; and at times unable to put his foot to the floor. We tried in vain, everything we could hear of that we thought would help him. We almost gave up in despair, when some one advised us to try Chamberlain's Pain Balm. We did so, and the first bottle gave so much relief that we got a second one, and, to our surprise, it cured him sound and well.—J. T. Bays, pastor Christian church, Neodesha, Kan. For sale by C. W. Milhous.

Lung Irritation.

Is the forerunner to consumption. Dr. Bell's Pine-Tar-Honey will cure it, and give such strength to the lungs that a cough or a cold will not settle there. Twenty-five cents at all good druggists.
